FEATURED CASE STUDIES

2016-2019: Microsoft chose the SharePoint Essentials Toolkit to help manage their SharePoint on-premise & online environment - including at their headquarters in Redmond WA. Microsoft continues use of our product since 2016 and agreed to be one of our references !

2016-2019: Ford Motor company deploys the SharePoint Essentials Toolkit to 13,000 Site Collection Administrators to help manage broken links and content for large scale (org-wide) 2 year migration. They have remained a customer even after their successful migration to today.

2015-2019: Intel and Intel Federal expand use of the tool to other areas of the company to manage SharePoint. Intel has been a customer since 2015.

2019: HP reviews 5 top SharePoint vendors to help them manage SharePoint permissions and day-to-day SP tasks. The project would cover 30,000+ users (SharePoint Site Owners & Admins). HP chose us! HP now uses the SharePoint Essentials Toolkit across HP globally for 30K+ Site Owners.
